FALCONIO ON DECREE

Papal Delegate Says It Guards Against Rash Acts.

EXPLAINS ALL THE PROVISIONS

Church Always Anxious to Prevent Claudestine Marriages-Order from Rome Becomes Effective at Easter. Full Text of Document Issued by the Congregation of the Council.

His excellency Diomede Falconio, Papal delegate to the United States, when seen yesterday by a reporter of The Washington Herald for an expression of his views on the decree recently issued by the congregation of the council, regarding the valid and licit celebration of the sacrament of matrimony, said:

"The Council of Trent made prudent provision against the rash celebration of clandestine marriages, which the church of God, for most just reasons, has always detested and forbidden, by decreeing: 'Those who otherwise than in the the prescribed books. presence of the parish priest himself or of another priest acting with the license of the parish priest or of the ordinary, and in the presence of two or three witnesses, shall attempt to contract matrimony, the Holy Synod renders them altogether incapable of contracting marriage thus, and decrees that contracts of this kind are null and void."

"But as the same sacred council prescribed that said decree should be published in all the parishes and was not to have force except in those places in which it had been promulgated, it has happened that many places in which the publication has not been made have been deprived of the benefit of the Tridentine law, and are still without it, and continue to be subjects to the doubts and inconvenience of the old discipline.

Doubt in Deciding on Priest.

"Nor has all difficulty been removed in those places where the new law has been in force. For often there has been great doubt in deciding as to the person of the parish priest before whom a marriage is force of law from the solemn feast of the Rest to be celebrated. The canonical disci- tion of Our Lord Jesus Christ, next year, 1908. pline did indeed decide that he is to be regarded as the parish priest, in whose parish one or other of the contracting parties has his or her domicile or quasimicile. But as it is sometimes difficult to judge whether a quasi-domicile really exists in a specified case, not a few marriages were exposed to the danger of nullity; many, too, either owing to ignorance or fraud, have been found to be "MAN'S STORE" TO CELEBRATE. quite illegitimate and void.
